ENGINEERING PLASTICS AE-ZL350XF

SKU: AEZL350XF

ASEC Kunststoffen BV

Marketing 17, 6921 RE Duiven, The Netherlands

T: +31 316 84 44 01 | info@asec.nl

Categories: BIO Based

AEZL350XF has "Polyamide-like" properties and convinces through very good elasticity. This Co-Polymer has a very high viscosity and keeps its high iMPact resistance even at low temperatures under dry conditioning and takes up water 50% less than Polyamide 6. AE350XF is a complete new and partly bio-based Co-Polymer.

Approved for food contact (FDA). Very high viscosity. High iMPact resistance even at low temperatures under dry conditions. Takes up 50% less water than Polyamide 6.

The information in this datasheet is provided for general purposes only and not meant to be a specific recommendation for any individual application. All values were determined under laboratory conditions. ASEC Products is not directly neither indirectly responsible for any claim resulting from the use of any information provided in this datasheet.
