VIBRATION MOUNTS AVFBFN

SKU: AVFBFN

ASEC Kunststoffen BV

Marketing 17, 6921 RE Duiven, The Netherlands

T: +31 316 84 44 01 | info@asec.nl

Categories: Bushes

Versatile bushes that provide the ability to extend service life of suspension components in vehicular applications. The AVFBFN bushes are designed and constructed using different materials and are shaped to provide a maintenance-free function by outlasting the predicted life of leaf springs and suspensions in automotive application.

Maintenance-free. Optional ordering with different elastomeric hardness and compounds. Optional ordering with smaller tolerances if required.

The information in this datasheet is provided for general purposes only and not meant to be a specific recommendation for any individual application. All values were determined under laboratory conditions.
