ENGINEERING PLASTICS POM AE-ZL900PE

SKU: AEZL900PE

ASEC Kunststoffen BV

Marketing 17, 6921 RE Duiven, The Netherlands

T: +31 316 84 44 01 | info@asec.nl

Categories: POM

Designed for the demand of sliding applications and is used in mechanical systems and appliance engineering. It can also been use for structural parts. AEZL900PE can resist high loads. Due to its outstanding tribological properties they have a wear resistant with minimal coefficients of friction.

Designed for demanding sliding applications. Resist high loads. Outstanding tribological properties. Wear resistant with minimal coefficients of friction. Color Light Blue.

The information in this datasheet is provided for general purposes only and not meant to be a specific recommendation for any individual application. All values were determined under laboratory conditions. ASEC Products is not directly neither indirectly responsible for any claim resulting from the use of any information provided in this datasheet.
