Categories: Cotton fabric phenol

AE PF CC 204 is a composite with cotton as its base, outstanding mechanical properties, good durability and low friction are achieved.

Hard wearing in aggressive and dusty environments. Weather and saltwater resistant. Can be lubricated with water, oil or grease. Shockproof, mechanically hard wearing, noise reducing and low friction.

The information in this datasheet is provided for general purposes only and not meant to be a specific recommendation for any individual application. All values were determined under laboratory conditions.
