INSULATION MATERIAL AI-PFCC22

SKU: AIPFCC22

ASEC Kunststoffen BV

Marketing 17, 6921 RE Duiven, The Netherlands

T: +31 316 84 44 01 | info@asec.nl

Categories: Cotton fabric

AI PF CC 22 Is suitable for mechanical applications. Impact-resistant, noise-reducing and wear-resistant material. Well suited as a low-friction material. High wear resistance in aggressive and dust-filled environments. Can be lubricated with water, oil or grease. Resistant to weather and salt water. Examples of applications are bearing bushes, rubber bearings and guide ring for hydraulic cylinders.

Shockproof, noise-reducing and hard-wearing construction material. Suitable as low friction material. Very hard-wearing in aggressive and dusty environments. Weather and saltwater resistant.

The information in this datasheet is provided for general purposes only and not meant to be a specific recommendation for any individual application. All values were determined under laboratory conditions.
