INSULATION MATERIAL AI-EPGC201

SKU: AIEPGC201

ASEC Kunststoffen BV

Marketing 17, 6921 RE Duiven, The Netherlands

T: +31 316 84 44 01 | info@asec.nl

Categories: Glas fabric phenol

AI EP GC 201 Can be describe as an all-in-one material. The carefully composed resins combine with the glass base result not only in exceptional resistance, but also amazing electrotechnical properties. Suitable for countless applications.

Good for applications where the materials are exposed to mechanical impact. Remains its funtional and retains its properties even at high temperatures. Easy to machine. Excellent electric properties. Heat resistant. Low water absoption.

The information in this datasheet is provided for general purposes only and not meant to be a specific recommendation for any individual application. All values were determined under laboratory conditions. ASEC Products is not directly neither indirectly responsible for any claim resulting from the use of any information provided in this datasheet.
