INSULATION MATERIAL AI-EPGC21

SKU: AIEPGC21

ASEC Kunststoffen BV

Marketing 17, 6921 RE Duiven, The Netherlands

T: +31 316 84 44 01 | info@asec.nl

Categories: Glas fabric phenol

AI EP GC 21 Has particularly good electrical and mechanical properties. Extremely high mechanical strength. Retains electrical properties at high air humidity. High resistance to chemicals. Engineering and insulation material in large rotating electrical machines and insulation cylinders in dry transformers.

Extremely high mechanical strength. Retains its electrical properties are relatively high humidity. High chemical resistance. Very good electrical and mechanical properties.

The information in this datasheet is provided for general purposes only and not meant to be a specific recommendation for any individual application. All values were determined under laboratory conditions.
