INSULATION MATERIAL AI-EPPC301

SKU: AIEPPC301

ASEC Kunststoffen BV

Marketing 17, 6921 RE Duiven, The Netherlands

T: +31 316 84 44 01 | info@asec.nl

Categories: Polyester fabric, Polyester fabric Epoxy

AE IP PC 301 is characterized for being strong and tough. It is also the lowest in welling in water and has an incredibly low water absorption. AEIPPC301 is high chemical resistance, e.g., to SF6 gas. When there is SF6 gas used as an insulation medium AEIPPC301 is suitable for high/voltage circuit breakers.

Outstanding mechanical properties, good durability and low friction. Easy to machine. High chemical resistance, e.g. to SF6 gas. Low water absorption and lowest swelling in water.

The information in this datasheet is provided for general purposes only and not meant to be a specific recommendation for any individual application. All values were determined under laboratory conditions.
