INSULATION MATERIAL AI-PROMALIGHTX

SKU: AIPromalightX

ASEC Kunststoffen BV

Marketing 17, 6921 RE Duiven, The Netherlands

T: +31 316 84 44 01 | info@asec.nl

Categories: Silicate filament

AIPromalightX is a high temperature microporous insulation panel.Which has good thermal and mechanical properties. AIPromalightX has silicon carbide as opacifier.

Excellent machinability. High thermal stability. Non-combustible. Resistant to most chemicals. Extremely low thermal conductivity.

The information in this datasheet is provided for general purposes only and not meant to be a specific recommendation for any individual application. All values were determined under laboratory conditions. ASEC Products is not directly neither indirectly responsible for any claim resulting from the use of any information provided in this datasheet.
