PIN ON DISC AND OSCILLATING TRIBOMETER

SKU: Pin-On-Disc-and-Oscillating-Tribometer

ASEC Kunststoffen BV

Marketing 17, 6921 RE Duiven, The Netherlands

T: +31 316 84 44 01 | info@asec.nl

Categories: Tribodesign

Do it yourself calibration Kit.Universal chuck to fasten all shape of samples.Enclosure to control humidity and temperature.Variable speed and loads.Printed report with all test results.Ultra precise measurement of wear rate.

In accordance with ISO 7148, ASTM G99-95A, ASTM G 133-95. To increase performance and reliability of mechanic parts, companies and universities study more and more friction properties and wear resistance of coatings and bulk materials. To replay to their needs we have developed versatile tribometers, reliable and easy to use.

The information in this datasheet is provided for general purposes only and not meant to be a specific recommendation for any individual application. All values were determined under laboratory conditions. ASEC Products is not directly neither indirectly responsible for any claim resulting from the use of any information provided in this datasheet.
